## Ration Board Enlarged Adding New Members To Carry On Work

The local Rationing Board announces the addition of two new members to its personnel, and their appointments have been approved by the Regional Administrator.

Albert J. Anderson of Warwick avenue is the new chairman of the Price Panel. This division of rationing is becoming more and more important, and there will be much work to be done. Mr. Anderson has organized his panel, and has announced that Thursday evenings from 7:30 to 8:30 will be available at the Town Hall for interviews with retailers or consumers who have problems or complaints in the price field.

Mrs. Gladys C. Bistrek is also an active price panel member, as well as being in charge of price project checking in Northfield. Mrs. Alfred Holton is price panel assistant in West Northfield, and the post of price panel assistant in East Northfield remains to be filled. If there is any public spirited citizen in that section who has an interest in price control, and who has an hour or two a week to spare will he or she please contact Mr. Anderson or the board office and submit his name? The rationing board would welcome such an offer of help.

A. Gordon Moody has been appointed as Food Panel chairman, and will give his attention to all problems of food rationing.

## Is Named Honor Man In Naval Training

John F. DesJardins, son of Rev. and Mrs. W. H. DesJardins of Newark, N. J., who for many years have been summer residents of this town, has just completed his training at the Naval Training station at Farragut, Idaho, and has been chosen as the honor man of his company. The selection was based on leadership and ability shown in the various phases of recruit training. Mr. DesJardins wife and two young sons are living in Kansas City, Mo.

He is a graduate of Hackensack, N. J. High school and attended Haverford college and the A. Y. Young Business school of Brooklyn. He expects to qualify for radio technician training or a year man's rating after his present 15 day leave. His father, an Episcopal clergyman, is treasurer of the Rustic Ridge Association and their summer home is on Cliff road.

## The Post War Plans Are Frankly Stated

Ambert G. Moody of this town, who with Mrs. Moody has spent the winter in Florida at Lake Alfred, recently came across an address in pamphlet form entitled "Twelve steps into serfdom." The text is an appeal to lawyers and others before the North Carolina Bar Association to consider the open truth about the undermining of constitutional freedom. The writer describes in no uncertain terms what has transpired in the United States during the past decade and compares it with the parallel of National socialism in Germany. The article is an authoritative word and offered by Malcolm McDermott, an attorney, graduate of Princeton and Harvard Law, professor at Duke University, and lecturer at universities in Poland.

A member of the American Bar Association, Mr. McDermott is a graduate of Mount Hermon school, class of 1908 and for a number of summer periods was on the staff at the Northfield Hotel. Many friends here will recall him and his abilities and rejoice in his successes and accomplishments. The editor of the Press trusts that it will be possible to obtain several additional copies of this address so that friends may have one to read and pass along to others.

## Former Resident Dies At Middlebury Home

Mrs. James Shea, wife of the manager of the Middlebury (Vt.) Inn and a former manager of the Northfield Hotel, died at her home there on Monday, March 27. She had been ill and had undergone an operation but death came unexpectedly. The funeral services were held the following Wednesday at the Congregational church with the pastor Rev. William F. Hastings officiating and burial was at Bar Harbor, Maine. She was active in the work of her church in Middlebury and interested in all social and civic endeavors, and recently in the cause of British War Relief. She was born in Union, Maine, November 8, 1900 and was the daughter of William and Mary Hawes. Many friends in Northfield will remember her kindly and gracious ways while a resident here.

## Our Tax Rate What Will It Be Some Rates Given

Our local Board of Assessors are busy men these days in considering the work of their assessing the many properties in Northfield. The poll tax list has been completed and property valuations are being listed. After determining the probable income from the state, the tax rate for this community will be fixed and filed for state approval. After all work has been completed, the rate will be made public. The town of Colrain was the first to submit their figure of \$20, then followed Deerfield with a rate of \$24 and Erving with \$21. Shelburne Falls announces a rate of \$28, Sunderland \$26, Charlemont \$38, Ashfield \$22 and Buckland \$18. Most of the rates thus far are the same as last year.

## Serving With WACS In Italian Campaign

Sgt. Katherine F. Solasz, daughter of Mr. and Mrs. Joseph Solasz, who reside just over the Northfield line in Winchester, is now serving with the WAC contingent assigned to service at the Peninsular base section in Italy. Miss Solasz was one of the first young women to enlist from this section. She was graduated from Thayer high school in Winchester and from the Springfield Academy of Beauty Culture, after which she carried on her profession at the Northfield Hotel. She is enjoying her experience with the Women's Army Corps in which she has already served fourteen months. She has two brothers and a sister in the service.

## A Topsfield Greeting

Friends of the Ripley family, who for a long time, were residents of this town, and conducted a rug manufacturing business, will be interested to learn that they are well situated in Topsfield, Maine to which place they removed nearly three years ago. They have a large commodious home with about 160 acres of land, some devoted to the raising of potatoes and considerable timberland. Just now the two boys are engaged in cutting timber for market and sending it to the mills in carload lots for pulpwood. Help is scarce but they have conducted a successful farm and enjoy the fruits of their labor. The family are all well and interested in Northfield, keeping in touch with events here through the Press.

RADIO REPAIRING  
DOES YOUR RADIO NEED REPAIRING  
OR CHECKING OVER?

If your set isn't giving good service, have it checked over by a competent radio repair man before it gets beyond repair. Radios and radio parts are hard to get nowadays, and because some parts are absolutely unobtainable some radios can't be repaired. For this reason repair jobs will be done on the basis of a flat charge for time plus the cost of parts rather than on a job contract basis. Terms will be quoted upon request.

Have your radio troubles diagnosed so that if parts are obtainable your set can be put into good working order. All work will be done by me.

Customer (sniffing haughtily): "Somehow I don't like the looks of the fish you have."

Fish Dealer: "Well, madam, if it's looks you're after, I'm afraid we have no goldfish."

"Don't you have any large rugs that unroll?" asked the woman with a little boy hanging to her hand.

"We don't display them that way any more," replied the sales-

man. "They are all in that pile."

"Oh," sighed the disappointed mother. "I promised Edwin he could watch you unroll some rugs this afternoon."

"Ya look worried, soldier, what's the matter?"

"Aw, there's so many women in uniform these days, we GI's have to wait to see whether we should salute or whistle."

## a WORLD of FOOD by LEO REINER

THE POCKETBOOK  
OF KNOWLEDGE BY TOPPSAre you protecting the soil  
your boy is fighting for?

Whether he thinks about it or not, your boy is fighting for the soil of America—your soil.

In the urgency of our greater need for foods, fats and fibres, it is important to remember that your fertile acres will produce more for you and for him when he returns, if their productivity is not lost through lack of soil protection.

The Ford-Ferguson Tractor and Fergus. Implements are designed to put soil protecting methods into operation, at new low costs and without any decrease in current production.

You will find this modern equipment especially suited to terracing, contour farming, strip cropping and effective control of water supply and soil erosion.

More tractors and more implements will be available than during the past season. Why not talk it over with us?
